

MOOD LONDONS TOP PICKS FOR BEAUTIFUL BARS

Lost in Tokyo - Manchester

Here at Mood London we love to explore new Bars (and not only to grab a cocktail or two!) Bars can be a great place to experience interior design, they are a place where customers tend to only spend a couple of hours a time, therefore very bold interiors can be used without growing tiresome. Here is a list of just some of our favourite:

1. The Glade Bar – Sketch - London

Sketch.London

The Sketch Bar in London has a number of different rooms, which are themed completely differently, but our favourite has to be the Glade Bar which feels like a gilded fairy tale forest, with delicate rattan furniture contrasted by a huge 'tree' chandelier nearly stretching across the whole ceiling, it is an enchanting interior to have a drink in.

2. Lost In Tokyo - Manchester

Lost in Tokyo

Lost in Tokyo is an underground Asian Bar, inspired by downtown Tokyo it features leather booths separated by wooden screens, and low hanging lanterns and neon signage. If you like to drink Sake as well as beer, this is the place for you.

3. The Refinery Spinningfields - Manchester

Northern Soul

Boasting high quality and innovative cocktails, this stylish and industrial location is filled with interesting and warm details, fur draped across the dining chairs, floor to ceiling windows and a beautiful weave pattern floor.

4. The Dandelion Bar - London

Provided by Management: 'Dandelion'

For a more retro and sophisticated location the Dandelion Bar located on the ground floor of the Mondrian Hotel, looks out over St. Pauls Cathedral and the river Thames. Glass tiles, velvets and high shine copper tables create a glamorous and luxurious feel, whilst the splashes of bright colour keep the atmosphere fun.

5. The Crazy Bear - Beaconsfield

Crazy Bear Group

A converted 15th century coaching inn located in the quintessential English suburb of Beaconsfield is home to the mesmerising and elaborately designed Crazy Bear Bar. It is the definition of opulent with exotic taxidermy wearing crystal necklaces filling the walls, an abundance of chandeliers and velvet wallpaper, a drink here is an entirely unique experience. If you don't live close by fear not, the crazy bear is also a hotel which has equally as eccentric room decor. A definite must stay!
